

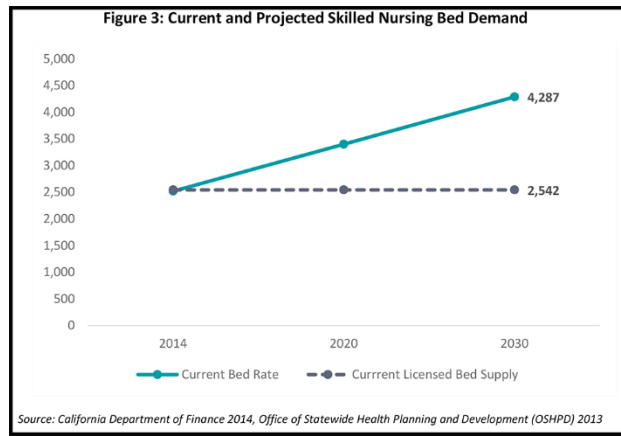

Figure 3: Projected Demand for SNF Beds

Source: "Framing San Francisco's Post-Acute Care Challenge" Report to Health Commission, February 10, 2016.

When SFDPH published this trend line in 2016, it was relying on three-year old, outdated data from 2013 — citing 2,542 then-current SNF bed supply in county. By 2017, that was false, and misinformation.
