**Subject:** RE: LHH Ting Project Description

Hi Amy: This has a big misconception, in that the site itself isn't big enough to "...create a spectrum of housing options for seniors that will serve a range of needs, from those who need assisted living and skilled nursing to those who are capable of independent living."

I know Supervisor Yee really wants a senior housing ladder, from skilled nursing to independent living, with RCFEs and assisted living in-between, but this site can't accommodate that, even if we (or some other city agency) had the money.

Can you check in with Mark, from Barbara Garcia's staff and see what their thoughts are for licensed assisted living or RCFE housing at this spot? And, if so, how they would pay for it? It seems, given the parcel size, that it's one or the other.

Thanks.

Kate
