

## Document Released to Requester — September 27, 2022

### City and County of San Francisco Public Records

#### Documents have been released for record request #22-5493 along with the following message:

Requester,

The San Francisco Department of Public Health has conducted a diligent search and could not locate any records responsive to your request. As courtesy for this request only, SFDPH is providing the following information. The reports that you received previously, responsive to your prior records requests, which combine the 2302 and 2303 CNA classifications, were not done in error. **SFDPH does not hire under the 2302 classification anymore, so when an existing 2302 position becomes vacant, it is automatically transferred to the 2303 classification.** This is the reason that these classification numbers are always combined together in vacancy reports.
